EXPERIENCE

Software Development Engineer

August 2024 – Present

Fynd

Mumbai, Maharashtra

- Worked on the **Impetus** platform using microfrontends in **React**.
- Worked on complete revamp of **Central Masters Tool** and **Analytics** screens working alongside UX team and PMs to incorporate latest UI **increasing the CRTs(Clickthrough rates) by 10%**.
- Designed and developed complete **Late Delivery** workflows for user roles. This included dynamic UI rendering, conditional validation logic, and API interactions to handle escalation and approval paths.
- Built a robust **Maker-Checker Workflow** supporting real-time validation, state management, and role-specific visibility and access. Contributed to audit-compliant processes through status tracking and controlled updates.
- Developed **Bulk Upload support** to efficiently manage and onboard large team datasets, ensuring error handling, preview validation, and confirmation steps.
- Integrated **RBAC(Role-Based Access Control)** mechanisms throughout the application, controlling visibility and access to modules, screens, and actions depending on user roles.
- Developed **Supplier Code Selection Workflow** that filters user dashboards based on chosen supplier code. Implemented cookie-based persistence for cross-session continuity and routing integration for smooth navigation.
- Wrote and maintained extensive **unit and integration tests** for critical workflows.
- Maintained client usage metrics through **MS Clarity** facilitating PMs to develop new features.
- **Tech used:** ReactJs, Javascript, NodeJs, VueJs, Kafka

Software Engineer

June 2023 – April 2024

Disprz

Chennai, Tamil Nadu

- Worked on the **LXP** platform microfrontends used by end consumers, allowing users to create and consume surveys and feedbacks using **React & .NET Core**.
- Worked on complete revamp of **Feedback Creation** and **Analytics** screens working alongside UX team and PMs to incorporate latest UI **increasing the CRTs(Clickthrough rates) by 10%**.
- Added **Content Reporting** support for Modules and Artefacts in Search Results page.
- Added test cases for new features using **react-testing-library**.
- Maintained client usage metrics through **Google Analytics** facilitating PMs to develop new features.
- Worked on **Skills Dashboard** which displays results after completion of users learning journey.
- **Tech used:** ReactJs, Javascript, .NET Core

Associate Software Engineer

July 2021 – Nov 2022

Mindbody

Pune, Maharashtra

- Worked on the Mindbody **B2C** app used by end consumers, allowing users to book appointments, classes at fitness establishments using **UIKit** and **React JS**.
- Worked on complete revamp of Mindbody app home screen working alongside Design team to incorporate latest design trends in the market **increasing the CRTs(Clickthrough rates) by 15%**.
- Added Liability Waiver support for Family Accounts.
- Maintained user usage metrics through **Pendo** and **Optimizely** which allows Product Managers to carry out various experiments among different user groups.
- Worked on Review Summary **endpoints** for fitness studios and classes.
- **Tech used:** ReactJs, Javascript, Swift

PROJECTS

URL Shortener | .NET Core, C#, SQLite

- Developed a URL shortener service using ASP.NET Core, implementing a robust fallback route to handle unmatched requests and redirect users to the appropriate long URLs.

Blog Application | NodeJS, MongoDB, Express

- Created a REST API server with NodeJs supporting CRUD operations on Users and Blogs.
- Added login credentials encryption using bcryptjs.

FlashBack | *React, NodeJs, MongoDB, Express*

- Social media app that allows users to post interesting events.
- Allows users to like, edit, delete and search posts based on tags and post titles.

YouTube Clone | *HTML, CSS, Javascript, React, RapidAPI, MaterialUI*

- Website to search any video or channel on YouTube by using RapidAPI endpoints.
- Allows video playback and displays video/channel statistics like subscriber/like/dislike count.

EDUCATION

Army Institute of Technology

Bachelor of Engineering in Information Technology, CGPA: 9.25

Pune, Maharashtra

July 2017 – June 2021

Army Public School

Class XII, Percentage: 89%

Jammu, JnK

Apr 2015 – Mar 2016

TECHNICAL SKILLS

Languages: C++, C#, Javascript

Libraries/Frameworks: React, React Testing Library, .NET Core, Express

Developer Tools: Git, VS Code, Postman

Data Structures, Algorithms, Operating System, DBMS
